

K-Love has been a part of changing my life. The uplifting message I receive through the music and teachings keeps my attitude positive. I believe I'm not the only one who feels this way about K-love. If you take away our ability to receive this radio station, it will have a very negative effect on many of us. I don't want to hear vulgarities and inappropriate programs. Have you listened to some of the secular programs lately? I don't think I need to say anymore. I know many people who will not listen to radio at all if that is our only choice. We need K-Love in my community. Please help us to keep them.
